

edsembli Ecosystem

Powerful functionality for all of modern education's needs

Stay in control of all aspects of school administration and management with an intuitive platform that unifies core human resources and payroll, finance, and student management processes.

Accomplish more with a platform that was built for education by education

Modern education is continuously being asked to do more with less—putting more strain than ever on individual schools and boards. Add to that the rising costs of maintaining an aging IT infrastructure, and it's clear why modern education needs powerful tools to level the playing field.

But how can modern education overcome these challenges while staying compliant with current regulations, ensuring data connectivity and visibility across all departments, and creating an intuitive experience that empowers staff, students, and teachers? **The answer is the Edsembli Ecosystem.**

The Edsembli Ecosystem gives schools a powerful platform that unifies all aspects of human resources, payroll, finance, school administration, and student management through improved data connectivity, visibility, and an intuitive user interface.

Our solution is the ultimate tool for individual schools or boards looking to improve how they leverage their data, embrace automation, and manage their day-to-day operations.

Ecosystem Highlights

100% Cloud Solution

Purpose-Built for Education

Fully Integrate HRP, FIN, and SIS Processes

Access High-Quality Support

Collaborate With the Edsembli Community

We're improving every aspect of modern education with a solution that does it all

Keep critical processes connected & visible across departments

The **Edsembli Ecosystem** provides school administrators with a robust solution that improves the way data flows between human resources, finance, and school administration.

Streamline your requisition to cheque process management

Simplify vendor management and purchase orders with built-in requisition to cheque process management. Quickly create purchase orders, get approval, and issue payments with **Edsembli | FIN**.

A better approach to staff management for union and non-union employees

Edsembli | HRP seamlessly integrates and handles all aspects of employee lifecycle management, including the intricate details of complex union agreements and education-specific requirements.

Engage with a community of education thought leaders

Edsembli is focused on creating experiences that empower modern education. We lean on our community of education experts to innovate, identify new features, and keep our platform aligned with education's needs.

Simplify student lifecycle management from pre-registration to graduation

From initial pre-registration to graduation, **Edsembli | SIS** leverages connectivity, automation, and a user-friendly interface to streamline student registration and profile management through the entire lifecycle.

Leverage automation to become more productive

Unlock your automation potential with a solution that makes automation more accessible than ever. Automate approval workflows, student pre-registration, reporting, and more with a powerful tool that learns on the go.
