Simplifying the human resources complexities of modern education

Gain complete control over all aspects of managing staff with a purpose-built solution that unifies HR, payroll, finance, and reporting while embracing automation and ensuring your data flows seamlessly between critical departments.

Supporting your staff from hire to retire

HR and payroll requirements in education are far more complex than in any other industry. Schools and districts encounter unique administrative challenges involving provincial and federal regulations, bargaining agreements, seniority management, pension requirements, complex union regulations, and more.

Keeping track of all these moving pieces without letting it impact day-to-day operations, the student experience, and other aspects of modern education is no easy task. School administrators are feeling pressured to navigate the intricacies of education without access to the right data, software, and support.

Edsembli | HRP was built to address the unique needs of modern education. Improve efficiency and reduce administrative burden with a robust cloud-based platform that simplifies compensation, deductions, appraisals, and agreements while keeping you compliant with current regulations at all times.

Your employees represent the core of your organization. Edsembli | HRP gives you all the functionality you need to streamline employee lifecycle management and maximize operational efficiency.

HRP Highlights

100% Cloud Solution

Automate HR Workflows

Integrates with Finance and SIS

Powerful Reporting Functionality

Collaborate With the Edsembli Community

Deliver seamless employee experiences with an integrated HRP system that does it all

Take advantage of built-in compliance to address your reporting needs

Create advanced reports in real-time. Edsembli gives you all the complex functionality you need to extract, analyze, and report data on demand. Our cloud-based platform includes built-in Ministry reporting capabilities, reducing the need for multiple solutions and integrations.

A better approach to staff management for union and non-union employees

We understand the unique and complex challenges faced by education administrators. Edsembli | HRP streamlines all aspects of employee lifecycle management, including the intricate details of union agreements and education-specific requirements.

Keep critical processes connected and visible across departments

Ensure seamless data flow between HR, payroll, and finance. Minimize errors, maximize employee visibility, and improve operational efficiency with a platform that produces comprehensive insights across departments.

Simplify hire-to-retire processes with functionality where you need it most

Create, auto-populate, and verify comprehensive staff profiles that eliminate the need for paper and email trails. Manage absences proactively, automate compensation packages, and generate comprehensive reports of employee history, including holiday calculations.

Leverage automation to become more productive

Combine cutting-edge automation with an easy-to-use interface to maximize productivity and reduce administrative burden. Automate compensation packages, records of employment, and more with a powerful tool that learns on the go.

Engage with a community of education thought leaders

Edsembli is driven by community engagement and support. We rely on our network of schools and districts as well as industry thought leaders to innovate, develop new features, and keep our platform aligned with the needs of modern education.
