Why choose Edsembli

Designed specifically for K-12

Streamlines financial operations

Provides deep financial insights

Optimized data integration tools

Edsembli | FIN helps you improve financial health across your school district.

Managing school district finances and budgets can be challenging with so many schools, vendors, and systems to oversee.

Edsembli simplifies financial processes by automating tasks like accounting, vendor management, and expense tracking while also integrating seamlessly with Edsembli's cloud-based human resources, payroll, and student information systems. Advanced features enable finance managers to effortlessly access financial details, view supporting documentation, and approve transactions. The platform also boasts robust security measures, including configurable role-based permissions and automatic user provisioning through Azure AD and Google.
